

## NSF CC-NIE Working Group Meeting

March 24, 2014

### Agenda

Time: 3:30-4:30pm, March 24, Monday

Location: Physics building, Conference room 403B

#### Agenda:

1. Status of the monitoring infrastructure
2. Update from CEN
3. Status of Science-DMZ equipment at Storrs
4. Update from UCHC
5. Next step
6. Open discussion on other issues

#### Minutes

#### Present:

UConn: Bob, Bing, Jeff F., Richard (Jones)

UCHC: Jeff Dutton, Sophan, Leo

1. Status of the monitoring infrastructure

Bing went over the throughput analysis results with Levon. Levon is in the process of incorporating the comments.

2. Update from CEN

CEN is still looking at an April 14th delivery for the DWDM equipment. The vendor is engaged and wishes to assist us with the turn-up of the equipment mid-April.

3. Status of Science-DMZ equipment at Storrs

Jeff, Bob, Bing and Richard met last week to discuss how to connect Richard's lab to the Science DMZ. Bob will look into several candidate devices.

#### 4. Update from UCHC

Jeff D. has been working with Richard and made good progress on the OSG site. UCHC has all gear on hand for the 100/40GbE backend except some minor cables.

#### 5. Next step

Richard mentions that his team has started the data challenge. He has not rolled out the experiments because of power outage in Physics building, but plan to start by Wednesday. Jeff will monitor the network traffic correspondingly.
